NEW DIRECTORY

The new directory for 1910, for Honolulu and the Territory of Hawaii, issued by the Polk-Husted Directory Company, has made its appearance, and it is certainly a work of art from all points of view.

The compiling of the statistics contained within the covers of the new directory has been under the direct supervision of R. W. Robinson, and appears to be as complete and the arrangement as perfect as could be wished for.

The following information is furnished by Mr. Robinson, and made more valuable on account of the present census enumeration.

For the island of Oahu and the city of Honolulu combined there are 21,722 names. This shows an increase of 862 names.

Using a multiple of three and a half gives a population of 70,597. The compiler finds that there are few empty stores and still fewer empty houses in the city, whereas at the same time two years ago there were quite a number of empty stores and several hundred empty houses.

BAND CONCERT.

June 27 is the day set for the hearing of the petition of Carrie C. Dreier for her appointment as administratrix of the estate of her husband, E. T. Dreier. According to the statement submitted the estate amounts to about \$4600, she and her son, five years of age, being the nearest of kin.

CAMPBELL TALKS ON WATER RATES

(Continued from Page 1.) "Our rates are about 100 per cent higher, according to the figures I get from the steamship men," he replied. "There have been many advocates of having this a free port, but I have never believed in that," he said. "We charge here \$2.50 for a million gallons of water but we hope to reduce this price."

According to Mr. Campbell the only waste which occurs now is from irrigation and on this account the rate for this service must be changed somewhat. The domestic water supply suffers no waste and so it would be unfair to charge higher rates for this service.

When pressed as to the exact amount of the increase for lawn irrigation the Superintendent stated that at present there was nothing to say more than the general statement which he had just given. That on the last day of the present month the whole report would be made public and then everyone would know the exact status of the rates one month before any change was made.

SMALL BOYS STEAL HORSE AND RIG

Two small boys were caught driving around the town this morning in the rig that was stolen from outside the Central Union church on Sunday night. The lads were seen by Albert Mendonza, who at once recognized the horse and buggy. He set out after the rig and the boys seeing him, whipped up and tried to escape. The hunt was short, however, as Mendonza quickly overhauled the lads and made them go to the police station.

It appears that the lads took the rig from where it was left and spent most of the night and next day driving around and seeing the sights. Johnson, the elder boy says that he feeds the horse and gave it a drink. Neither boy is more than twelve years old, and Johnson is well known to the police. Mrs. Deakson, from whom the rig was stolen did not know either of the boys.

WATERFRONT NOTES

TWO INTER-ISLAND steamers sailed for the island of Hawaii at noon today. The Hilo liner Mauna Kea got away with a fair assortment of general cargo. This vessel also carried a number of passengers a large percentage being booked for the Volcano. Across the slip the Kona and Kau steamer Mauna Loa cast off her lines at the noon hour. This vessel will call at a number of ports on westward Hawaii. The Mauna Loa left with a fair number of cabin and deck passengers. The Hawaiian land received the usual complimentary concert at the departure of the steamers.

SUGAR AND PINEAPPLES in large quantities will make up the bulk of the cargo to be carried to San Francisco by the Matson Navigation steamer Wilhelmina. The vessel is scheduled to sail at 10 o'clock tomorrow morning from the Matson wharf. The freight list includes 4760 tons raw sugar, about 1900 tons refined, 10,000 cases thinned pineapples, 2800 bunches bananas and a variety of sundries. The steamer will carry a large number of passengers.

SQUALLY WEATHER, accompanied by rain and high seas, is reported by wireless from the Canadian-Australian liner Makura, which vessel at 8 o'clock last evening was 1016 miles off Cape Flattery, steaming towards Honolulu.

THE INTER-ISLAND steamer W. G. Hall, with a shipment of 5500 sacks of sugar and a quantity of sundries from Kauai ports, is due to arrive at Honolulu at an early hour tomorrow morning.

THE SCHOONER S. T. Alexander finished discharging at Hilo on last Tuesday and was then fumigated. She sailed for Royal Roads, British Columbia, and expects to take lumber from the Northwest to China.

HAS BEEN WANTED FOR OVER YEAR

Embezzler Windt Thought To Be In Honolulu By U. S. Officials

Alfred B. Windt, alias J. S. Stewart, has been wanted for over a year by the United States authorities for embezzling \$5000 from the First National Bank of Leechburg in March of last year.

Windt has traveled over the United States since the time of his embezzlement, being traced and nearly caught several times, but he is still at liberty, and the United States Department of Justice has reason to believe that he is in Hawaii, for he has a girl here.

Several days ago United States Marshal Hendry received a cable from Special Agent Harrington of the Department of Justice at San Francisco, asking that the authorities here look for Windt, locate or arrest him if he was in the Territory.

Marshal Hendry sent copies of the cablegram to the sheriffs throughout the Territory, with the meager description of the man, and is now awaiting the full particulars and description which were mailed at the time the cable was sent.

The cable received by Marshal Hendry from Special Agent Harrington reads as follows: "Alfred B. Windt, alias John S. Stewart, wanted embezzlement First National Bank, Leechburg, Pa., in March of last year. Complaint filed, Hungarian. Five feet eight inches, 150 pounds, smooth fair complexion, brown eyes, sport; has girl, Honolulu; at Pittsburg last winter, Los Angeles last March. Locate, arrest, notify department; address United States attorney, San Francisco."

With the arrival of the fuller description by the next mail, and its scattering broadcast over the Territory, it is expected that Windt will be gathered in by the officials if he is in the Territory.

THE TRANSPORT Thomas, now laid up for an extensive overhauling, will come out of drydock and return to a slip at Folsom street, San Francisco, for a short time before being sent to an anchorage in the bay. Hundreds of mechanics are to be employed on the Thomas for the next four or six months, the work of bringing the troopship up to date costing the government about \$300,000. Captain George H. Pearce, formerly commander of the Sheridan, later in the steamer Homer, is chief officer in charge of the Thomas. Captain Lynam, the regular commander of the Thomas, is temporarily in charge of the Buford, now here in reserve.

BACK CAPSIZED

Hack No. 301, driven by J. Peterson, was capsized outside E. O. Hall & Sons today at noon. The driver tried to turn around in too narrow a circle, and the wheels becoming locked, the rig overturned. The horse became alarmed and only for the prompt action of some bystanders a serious accident might have occurred.

No damage to speak of was done, as only a single tree was broken; the horse was limping a little as he was taken away but there were signs of an old injury on his near hind leg that may have accounted for the lameness.

DOUBLES THURSDAY

It was decided this morning to postpone the start of the tennis double championship until Thursday next. The change has been made out of respect for the late W. W. Hall, whose funeral has not yet taken place.

Entries for the doubles will not close till tomorrow afternoon at five o'clock, and the drawings will be then made right way.

SCULLY CABLES TO BIG BUNCH

Mr. Scully, the promoter of anything that stands for good clean sport has cabled to McIntyre, the manager of Robert Fitzsimmons a proposition to have the aggregation, consisting of Bob Fitzsimmons, Burns, Bill Lang and McIntyre, who are coming on the Marama, stop off at Honolulu for four days. They would arrive by the Marama and sail again by the Manchuria.

It is proposed to arrange an exhibition bout between Lang and Burns, and to also have a sparring exhibition by Bob Fitzsimmons.

The whole exhibition would be strictly under the management of the Fitzsimmons aggregation.

Mr. Scully has made so flattering an offer in his cable that it would take a Rockefeller to disregard it.

The "Big Ones" will, if they accept the offer of Scully, be in the city for four days during which time they will be shown all the sights and rest up for the remainder of the voyage.

WILL BE MOVED TO NEW SITE.

(Continued from Page 1.) The new building which it is proposed to erect will be a 12 or 14 room affair to take all the children in that part of the town and will correspond to a ward school in the states, accommodating nearly 1,600 pupils.

Superintendent Pope is now busy making lists of buildings to be erected and repaired on Oahu during the coming vacation, and this work will be taken up by the county engineer as soon as the buildings are vacated for the long vacation.

Manager McCredie is putting his men through stiff morning practices these days. He says he is going to get results or get another ball club.

WATERFRONT NOTES

THE American-Hawaiian steamer Arizona arrived at Hilo last Friday, going direct from San Francisco and Honolulu, instead of first going to Kaanapali and Kahului. This was done on account of the fact that the American-Hawaiian was very anxious to recover the big steel girder for the Honolulu bridge, which was dropped overboard when being discharged from the Alaskan. The Arizona had a diver on board, who went down for the lost girder, and he evidently knew his business, for within two hours after he had started work the girder had been located, tackle had been rigged, the steel beam brought up and placed on the deck of the steamer to wait for a lighter to take it ashore.

The Arizona took sugar and left for Kahului on last Monday. She also took sugar at the Maui port and then completed her cargo at Kaanapali.

THE TRANSPORT Thomas, now laid up for an extensive overhauling, will come out of drydock and return to a slip at Folsom street, San Francisco, for a short time before being sent to an anchorage in the bay. Hundreds of mechanics are to be employed on the Thomas for the next four or six months, the work of bringing the troopship up to date costing the government about \$300,000. Captain George H. Pearce, formerly commander of the Sheridan, later in the steamer Homer, is chief officer in charge of the Thomas. Captain Lynam, the regular commander of the Thomas, is temporarily in charge of the Buford, now here in reserve.

THE CANADIAN-AUSTRALIAN steamer Manuka from Sydney via Suva, is expected to arrive at this port tomorrow. The vessel is bringing up a cargo of several hundred tons, including refrigerated provisions and other supplies. The through passenger will be given but a brief opportunity of visiting the points of interest at Honolulu as these vessels make but a very short stay here. Should the Manuka arrive at any time before 11 o'clock in the morning the liner will in all probability be dispatched for Vancouver by 5 o'clock in the afternoon.

THE SUPERSEDING of British officers by Japanese on the Japanese trans-Pacific liners, the officers being removed one by one, generally at the Coast end of the run, is said to be due to the pressure exerted by Japanese public opinion, which demands the manning of Japanese vessels entirely by Japanese. The companies would like to retain white captains and chief engineers, but will not be able to. Each month sees fewer white officers on the Japanese liners that arrive on Puget Sound from the Orient.

WHILE THE BRITISH steamer Gowanus was lying in Manila harbor a quarrel occurred on board between the Cantonese and Shanghai members of the crew, in which four men were stabbed and removed to hospital with serious injuries. Four of the offenders were then taken ashore for trial before a Manila magistrate, but the Manila authorities did not proceed against the men and handed them over to the British Consul-General at the port.

IT IS REPORTED in connection with "wireless" telegraphy between Japan and Hawaii, that Dr. Asano and other higher experts have decided that transmission of messages is practicable if the location of the Hawaiian office is changed. According to the authorities of the Communications Department, says the Japan Herald a "wireless" service will shortly be started between Japan and Hawaii.

THE ARRIVAL of the oil tanker Lansing at Port Harford is reported yesterday. The vessel sailed from Honolulu on May 15, after having discharged a shipment of fuel oil.

SAILING FROM Honolulu on May 12, the Matson Navigation freighter Hyades is reported to have arrived at San Francisco yesterday.
